Hi Brandon,

Did you have a chance to look at the attached map to determine:

1. If you'd like data for any of the other wells in the area and
2. What wells you would like to request access to for sampling.

Jessica and I will meet with our manager to discuss signing the access agreement form as soon as we know what wells you are interested in sampling.

Thanks!
Jessica

Hi Brandon,

Thanks for sending over the access form.

Attached is a map of the 6 wells we have in the area, and MW355 analytical data and well log. I will send you the groundwater elevation data for MW355 soon. Let me know if you'd like data for any of the other wells and I should be able to get that to you by the end of the day.

Jessica

Hi Jessica

Thank you for taking a moment to chat this morning about accessing the monitoring wells at Arthur Johnson Park. I've attached the consent for access form I mentioned during our call. Let me know if you have any questions about the form or any of the work we are conducting.

Hi Brandon,

I apologize for the delay, I was in a meeting all morning.

There are two monitoring wells that the City owns at Arthur Johnson Park. Both are functional and have been sampled semi-annually for depth to water measurements, and several times for water quality data. I am happy to send you data associated with both wells if that will help with the project.

Could you please send me more information on what you plan to collect at the monitoring well and a bit about the project? The City hasn't let another entity collect samples from our monitoring wells previously, but perhaps we could work out an arrangement with more information. If it would be easier to talk, please feel free to give me a call. I am about to leave for another meeting, but am free tomorrow anytime between 9:30 - 3:00 or after 10:30 on Friday.

Thanks,
Jessica

Hi Jessica

I received Jessica Pfundt's out of office reply which directed questions and inquires to you. I had a question regarding the

well at Arthur Johnson Park. My original email to Jessica is below.

Subject: Arthur Johnson Park Well

Hi Jessica

Wanted to touch base and follow up on my voicemail from yesterday regarding the well at Arthur Johnson Park. I inquired about the well to Jonnie at City of Redmond and she recommended that I contact you.

EPA is conducting a site assessment of the Gunshy Farm and would like to assess groundwater conditions downgradient of the site. Jonnie mentioned the well at Arthur Johnson Park is a monitoring well. Is the well available and operational to allow for collection of a sample?
